opment, I specialize in building scalable

```
        ,shiftKey)=  
        attribute("type"  
        ||b.metaKey  
        .enabled));if  
        (w))|&&(w=="C"  
        ||w=="U")  
        var tmu=_  
        Anew=|&|
```

## Timeline

## Results

## Senior Software Engineer

## Led development

Improved API response time by 60% through optimization

Built MVP that secured Series A funding

Implemented  
Collaborated

WebDev Sol

- Developed client websites using modern frameworks
- Participated in code reviews and agile ceremonies
- Maintained documentation

Master of Science in Computer Science  
University of Technology • 2015 - 2016

## Publications & T

## I. “Optimizing WebAssembly”

2. “Building Scalable Real-time Systems” - DevCon 2022
  3. “Introduction to Rust for JavaScript Developers” - Local Meetup

- Google Cloud Prof
- Certified Kubernetes
